

Setting your computer to display SMIS properly:

*Note: These directions apply to PC's utilizing the Microsoft Windows 2000 operating system. Your computer may be different.*

1. Click on **Start**.
2. Click on **Settings**.
3. Click on **Control Panel**.
4. Double Click on **Display** in the Control Panel window.
5. Click on the **Settings** tab at the top of the **Display Properties** window.
6. Write down the **Desktop Area** or **Screen Area** value in case you want to restore your original settings.
7. Click and drag the sliding bar until **1024 by 768** pixels is displayed.
8. Click **Apply**.
9. Click **OK** to close the **Display Properties** window.

To restore the original settings:

Follow Steps 1 through 5 above.

Click and drag the sliding bar until the original screen area setting is displayed.

Click Apply and OK to close the Display Properties window.
